📍 Lazimpat,Kathmandu,Nepal   🚩 Nepali

Profile

Motivated and detail-oriented Associate QA Engineer with a strong foundation in software testing and quality assurance principles. Skilled in writing and executing test cases, identifying bugs, and collaborating closely with developers to ensure high-quality software delivery. Demonstrates a proactive attitude toward learning and problem-solving, with hands-on experience in manual testing and basic exposure to automation tools. Passionate about improving user experience through rigorous testing, clear documentation, and continuous feedback. Eager to grow in a fast-paced, team-oriented environment while contributing to reliable and user-focused digital products.

Professional Experience

06/2024 – present
Kathmandu, Nepal

ASSOCIATE QA
Innovatetech PVT LTD
• Collaborate with development and design teams to ensure product quality acrossmultiple web and platform-based applications.
• Assist in creating and maintaining detailed test plans, test cases, and test scripts forfunctional, regression, and integration testing.
• Execute manual tests to identify bugs and usability issues
• Participate in daily stand-ups, sprint planning, and project meetings to align QAefforts with project goals.
• Contributed to documentation and helped streamline testing processes across theQA team

04/2024 – 06/2024
Kathmandu, Nepal

QA INTERN
Innovatetech PVT LTD
- Learned and applied fundamental QA practices including regression testing and smoke testing.
- Collaborated with developers and designers to understand application flow and user scenarios.

02/2023 – 02/2024
Kathmandu, Nepal

Data Analyst
Cloud Factory
- Worked extensively with Microsoft Excel to clean, organize, and validate large datasets for accuracy and consistency.
- Performed data entry, analysis, and formatting tasks with high attention to detail and accuracy.
- Collaborated with remote teams to meet daily and weekly project targets under tight deadlines.

Education

2018 – 2022
Kathmandu, Nepal

Bachelor in Computer Application(BCA)
Janamaitri Multiple Campus

2016 – 2018
Kathmandu, Nepal

Plus 2 (Management)
Trinity International College

Kathmandu, Nepal

SLC
United Academy

Skills

Testing & Quality Assurance:
- Black Box & White Box Testing
- Performance Testing
- Test Case Design
- Bug Reporting
- QA Documentation

Soft Skills:
- Strong Communication (Nepali & English)
- Problem Solving
- Cross-Functional Team Collaboration
- Time Management
- Conflict Resolution
- Adaptability

Tools & Technologies:
- GitLab
- GIT
- Postman
- Figma
- InVision
- Slack
- Google Chat

Additional Skills:
- Requirement Gathering
- Project Coordination
- Basic Graphic Design
- Content Editing

Projects

Kungfu Quiz (KFQ) Platform ⌧
- Coordinated cross-functional teams including design and development to align goals and timelines.
- Led sprint planning, daily stand-ups, and milestone tracking using GitLab Kanban boards and Excel sheets.
- Collaborated with Project manager Developers and Designers to gather, refine, and document technical and functional requirements.
- Supervised User Acceptance Testing (UAT) and ensured production readiness through structured final reviews.
- Maintained comprehensive documentation including requirement documents, design flows, test plans, releasenotes, and project trackers.
- Proposed and discussed new feature ideas to enhance platform functionality, such as AI-driven questiongeneration and improved analytics dashboards.
- Tools used: GitLab, Figma, InVision, Excel, Google Docs.

My Second Teacher (MST) Platform ⌧
Global, Nepal, Indonesian, Alston
- Performed functional, regression, integration, and usability testing to ensure software stability, performance, andconsistent user experience across all platform versions.
- Collaborated with developers to identify, document, prioritize, and track defects for timely resolution.
- Participated in requirements review and test planning sessions aligned with business objectives

Interactive Video Publisher (IVy) ⌧
- Tested the IVy platform for uploading educational videos and embedding interactive questions.
- Verified accurate triggering of questions during video playback for smooth user engagement.
- Tested multiple question types and formats to ensure functionality and user response capture.
- Reported bugs and collaborated with developers to improve platform reliability.

Ecommerce website
- Defined and implemented the overall QA strategy, including test planning, execution, and reporting
- Conducted manual testing of key features such as cart, checkout, payment gateways, product catalog, and user account flows.
- Ensured compatibility across browsers, devices, and screen sizes through cross-browser and responsive testing.
- Provided regular quality metrics and reports to the PM, highlighting key issues and risks.
